

For this reading assignment, you will read the following paper:

*Minsky, Marvin L. Why people think computers can't.* AI magazine 3, no. 4 (1982): 3-3.

As before, you are to submit a brief summary of the paper. The summary should not exceed one page total. As before, your summary should include:

1. A summary of the justification (theorems/proofs or experiments) the paper gives for the proposed idea (**in your own words**; the summary should not exceed half a page.),
2. **Your** opinion of the validity of the justifications given. Give strengths and weaknesses of the paper.
3. Comment on how the current approach can be improved.
4. Two or three questions **you** have about the paper.

Critiques not following the above instructions will not be marked.
